Update on Book

As of Labor Day over 40 of the 68 pages are written and ready for the pictures to be put into place.

There is some editing to do on some of the pages, such as determining the date of dedication and making sure of the wording on the marker or monument.

This may require a return visit to the site in some cases.

As you might expect, there have been some surprises along the way, mostly in finding out for whom some of the chapters of the W.R.C. are named.

I think it is fair to say this publication will prove to be interesting reading for any area Civil War enthusiasts.
